## ENVIRONMENTAL ASSESSMENT OF DEWATERING AND RCRA PARTIAL CLOSURE ACTION ON THE SOLAR EVAPORATION PONDS

Attached is the latest revision of the "Environmental Assessment of Dewatering and RCRA Partial Closure Action on the Solar Evaporation Ponds." This version incorporates comments from the Colorado Department of Health (CDH) pre-approval review which required more background history concerning Solar Pond 207-C, and descriptions of the proposed actions pertaining to Solar Ponds A, B, & C.

One particular comment from CDH was not addressed in this EA. That comment referenced the possible implementation of an interim measure / interim remedial action (IM/IRA) for the treatment of ground water via the interceptor trench system and surge tanks. It was felt that this comment was not appropriate for inclusion into this EA, but would be discussed separately among CDH, EG&G and DOE.

Should you have any questions or comments regarding this transmittal, please contact Steve Nesta at 273-6076.
